

HINDS-BOCK MULTIPLE PISTON FILLER WITH DIVING/TRAVELING SPOUT BRIDGE.

Designed for use over continuous motion entree or pie lines. This machine features PLC control, large port openings, tilt hopper for easy sanitizing, thrustless actuator for the product valve and drop down pneumatics to make maintenance easier. Many hoppers are available including a U-hopper with variable speed horizontal helical agitation. Spouting is either rotary shut-off or vertical blow-off and bridge can either travel with the target or over/under run for spreading.
